

Insurance

Which insurance to choose? And which not to?

Insurance for motorhome rentals in Australia

The daily rental price of motorhomes in Australia offered by CampingCar-Online/Ramble Campervans always includes liability insurance and vehicle damage insurance.

Please be aware that the basic insurance included in the daily rental price of your motorhome in Australia always has a very high liability and deductible (up to \$7,500). CampingCar-Online/Ramble Campervans strongly recommends that you choose a full or partial liability reduction option, as without this the deposit and deductible remains extremely high (up to \$7,500).

If you are comparing the rental prices of motorhomes in Australia on different websites, be sure to check the amount of the deposit and deductible (it may also be useful to consult the reviews of professional motorhome rental forums).

Do not hesitate to call our specialists at CampingCar-Online/Ramble Campervans for information and explanation of your Australian motorhome insurance needs.
