

Hervé F, gold digger on Australian roads

From Perth for 28 days of roadtrip in 4x4 through Australia (from 05/09 to 3/10)

The 4x4 is the perfect vehicle to cross the sand track of australian desert. We hope that our gold digger's researches have been successful.

These landscapes are a gold mine for all of us who feel for adventure !!

The desert as far as the eye can see ... with a flower break ...
