Temperatures and seasons in England

Discover the best time to visit the different English regions depending on the temperatures.

May and June are the best months to travel in England. This is the time of year when the days are longest and the sunshine is at its peak.

If you want to enjoy the beaches, the month of July is the best time to do so, as temperatures are highest in the south-eastern quarter of the country.

In winter sunshine is scarce, temperatures are lower and winds are stronger. You can however put on your skis in January and February.

It is possible to travel in England all year round depending on the regions you wish to visit.

Below is an overview of the average monthly temperatures per motorhome rental centre.
