

The climate

Temperatures and seasons in Finland

Discover the best time to visit the different regions of Finland depending on the temperatures.

Finland has only 2 seasons: winter and summer. Winter lasts 6 months during which the nights are long and the landscapes are covered with snow. It is an ideal climate for cross-country skiing. Spring hardly exists, summer arrives very quickly. The days get longer and the temperatures rise. It lasts 3 months, from September the temperatures get cooler. In summer, it is pleasant to go and admire the sunsets near the big lakes but you have to protect yourself from mosquitoes!

Please find below the temperature according to the cities of departure of the motorhome rentals.
