Petrol and service stations in South Africa

Everything you need to know about fuel and service stations in South Africa

Fuel and service stations in South Africa

On May 24th 2021, the average cost of petrol is **\$1.23/liter** and the average cost of diesel is **\$1.178/liter**.

But, as in many parts of the world, the price changes very quickly. You can consult them on the [Global Prices Petrol](#)

Attendants at service stations are there to fill up your vehicle and offer other vehicle services, in exchange for a tip.

Always **check the total fuel tank capacity** of your vehicle before departing on a long journey, as often the service stations are quite far apart.
