

Large Aletsch Glacier

Large Aletsch Glacier

The Large Aletsch Glacier is the largest alpine glacier in the Alps, with 11 billion tonnes of ice this monolithic beauty is part of the UNESCO World Heritage Site. The glacier is surprisingly easy to get to and view so is an easy and impressive addition to your motorhome rental itinerary.

From the slopes of the Eiger to the Valais this mighty glacial ice flow offers you **incredible hiking routes and views**. At **20km long** this is the longest ice stream in the Alps, with a surface area of **79 square kilometres** and a weight of **10 billion tonnes**. Park your **Motorhome** rental at Betten Cable Car Station and ride up to Bettmerhorn for the best views of the mighty **Grosser Aletsch Glacier**. This is one of the many unique things to see in Switzerland on your motorhome rental holiday.
