

Los Angeles - San Francisco by motorhome

A family motorhome journey in the USA - Cecile G

We are back from our camping car trip to the USA where we spent 2 weeks in the western National Parks.

We want to thank you for all your help in organizing this wonderful holiday. Everything went extremely well from the moment we collected our camping car in Los Angeles to the day we returned it in San Francisco. We had a really perfect holiday with beautiful memories and many amazing photos.

The camping car we rented was an American model for 5 people. We had enough space.

With all the good facilities in the American campsites, a motorhome holiday is really the ideal way to explore the country.

So thank you again, CampingCar-Online/Ramble Campervans, for an unforgettable 15 days.
