Living on the Edge

Discovering an entire country by 4X4 is great, and discovering it in a more unusual and extraordinary way is better. The amount of activities available in the Livingstone region is incredible. There is something for everyone and every taste. All that's left is to choose!

Close to [Livingstone](#), of course, lies the famous [Victoria Falls](#). Just by hiking the region on foot the landscapes are already fantastic, between waterfalls, gorges, canyons, rivers (the Zambeze), and the forest.

However, further than a [simple hike](#), you can take the highs and get up close for a truly special experience. There is no [shortage of activities](#): rappelling, rafting, canoeing, kayaking, portaging, helicopter rides, bungee-jumping, etc...
