The city and the region dubbed "Vic Falls" experiences a certain prosperity due to tourism with the Victoria Falls being the main attraction. They are isolated by a thick rainforest, but are actually only a few kilometres away from the town. When you visit the Victoria Falls National Park remember to protect your personal and electronic devices from water/moisture damage. Several view points are available to admire the falls. Cataract View is one of the most impressive. Also take the opportunity to admire the surrounding forest and its unusual floral diversity. You can also walk along the Zambezi River below the falls and you may even see some wild animals, such as warthogs, lions, crocodiles, hippos, elephants and antelope. Many activities and extreme sports are possible close to the falls, such as rafting, bungee jumping, canoeing, guided walks, cruises and safaris.

Victoria Falls is an ideal starting point to explore the Zambezi National Park and other parks in the country. You can also visit Namibia, Botswana and South Africa.
