

Zambia

A Surprising, and Rather Unknown Country

With the principal cities and nature areas rather spread out, Zambia is a true country of adventure. Its nature preserves and wild areas offer some authentic and sumptuous scenes!

To experience **Zambia** by road is to discover the wild charm of this African country, just as vast as it is rich.

On the banks of the Zambeze River, it shares one of the most beautiful sites in the world, **Victoria Falls**, with neighboring Zimbabwe. Zambia also boasts **19 national parks** and **36 wildlife management areas**. That being said, there is no end to exploring untouched routes, animal spotting, and extreme activities and sports, all surrounded by lush countryside.
